Strongbox Sandpit Assembly Instructions

**1. GENERAL SAFETY**

This product is intended for indoor and outdoor, domestic use only. It is not suitable for commercial or medical use.

Weight Limit: 40kg per side

**1.1 DANGER FOR CHILDREN WARNING!**

- Children do not recognize potential dangers from this product. The product must be stored out of reach of children and pets.
- No eating while using the product.
- This product may only be used with adult supervision at all times.
- The packaging material is not suitable for children due to choking and suffocation hazards.

**1.2 RISK OF INJURIES**

- Do not use the product if it is damaged or defective. If it is damaged or defective, please contact a qualified technician.
- Check the product before each use. Defective parts must be changed immediately as they can impair the function and the safety of the product.
- No more than one person to use the product at the same time.
- Use the product only on even and non-slippery surfaces. Never use it near water and keep sufficient space around for safety.
- Beware of moving parts such as the springs or elastics, which could catch your arms and legs. Do not place any objects or body parts in the product's openings.

**1.3 PRODUCT DAMAGE**

- Do not make alterations to the product. Only use original spare parts. Qualified technicians should only carry out repairs – improper repairs can lead to danger. Use this product only as described in this manual.
- Protect the product against splashes, humidity, high temperature and direct sunlight.

**1.4 ASSEMBLY ADVICE**

- The assembly of the product must be done carefully and by an able-bodied adult. If in any doubt, ask a technically qualified person.
- Before you start with the assembly, read the instructions carefully.
- Remove all packaging materials and lay down all parts on an open space. This gives you an overview and simplifies the assembly procedure.
- Check with the parts list that all parts are available. Dispose of the packaging material when the assembly is completed.
- Beware that when using tools or doing technical work, there is always a risk of injuries. Assemble the product with care. Create a danger-free environment; for example, do not let tools lay around the workspace. Store the packaging material in a way that cannot cause any danger.
- After installing the product according to the instruction manual, ensure all screws, bolts and nuts are correctly installed and tightened and that all joints are secure.
- Reasonable space must be kept between the product and possible sources of danger, such as other equipment, swimming pools and fences.
- The product must be assembled correctly before use.
- Place the product on a level surface at least 2m from any structure or obstruction such as a fence, garage or house.
- Modifications made to the original product shall be carried out according to the instructions of the manufacturer.
- The product must always be used in a well-lit area. Do not place anything under the product.
- Use gloves during assembly and disassembly.
- Outdoor products should be equipped with a device that in strong wind conditions avoid displacement due to wind (e.g. steel bars in the ground or loads like sand bag or water bags).
- In certain areas during winter, snow buildup and the low temperatures can damage the product. It is recommended to remove snow buildup and to store the product indoors.
- We strongly recommend visual inspections every 3 months to ensure the integrity of the entire product.

**2 SAFETY INSTRUCTIONS**

- The safety instructions of the product should always be considered and obeyed.
- Using the product may result in permanent injury such as paralysis, or even death. Falling off the product may lead to injuries, particularly to the back, neck or head.
- No clothes with hooks or loose parts should be worn or carried during product usage in order to avoid hooks getting caught and causing injury.
- Strong winds can result in the product being blown away or damaged. If strong winds are predicted the product must be disassembled and moved to a sheltered area or sufficiently anchored down.
- Moving the product whilst assembled may affect the integrity of the frame. Should it be necessary to move the product, please consider the following:
  - Force to be evenly spaced around the frame. Should it be necessary to lift the product off the ground.
  - The product must be carried horizontally.
  - Use caution whilst moving as it could bend the product frame.
- Users should be familiar with the assembly manual. This manual contains assembly guidance; selected precautionary measures as well as recommendations for servicing and maintenance of the product, in order to ensure a secured and fun use of the product.
- It is the responsibility of the owner or the supervisor to guarantee that all users of the product are informed sufficiently of all warning references and safety instructions.

**For the supervisor:**

- The supervisor's role is to make sure users are aware of all safety precautions and that these precautions are enforced. When a supervisor is not available, the product may be disassembled or covered to limit access. The product can be only used if it is in good condition, worn or damaged parts should be replaced. Objects, which could be dangerous to the user, should be away from the product. Avoid unauthorized and unsupervised use of the product. Do not use the product under influence of alcohol or drugs (incl. medicines).
